Building partnerships. Serving communities.

As one of the largest private sources of funding for affordable housing in the country, FHLBI goes above and beyond to build partnerships and serve communities. Since 1990 we have combuted over \$131 million in grants to fund affordable housing. These funds enable banks to pass along millions of dollars of assistance to housing developers throughout Michigan and Indiana. As a result bankers can make loans to first-time homebuyers who require down-payment assistance and apartments can be built to benefit low- to moderate-income families.

Our Community Investment Program (CIF) provides low- and below-market rate loans that reduce risks associated with non-conventional loans for community development (Popens doors that might otherwise be closed to developers, small businesses, and non-profit organizations seeking opportunities to help grow their local economy.

Dear Friends and Supporters of Our Lady of Grace School,

Welcome to Elysian Fields, our third annual Parent Teacher Organization gala in support of Our Lady of Grace Catholic School. On behalf of everyone involved in our parish and school, I want to sincerely thank you for your attendance and your support this evening.

Our Lady of Grace School, in its short five-year history, has already become a place of excellence in faith formation and academic achievement. Our parents, faculty, staff, and volunteers have worked together to make this happen. Now we want to make it even better.

How?

We want Our Lady of Grace School to excel not only in academics and religious instruction, but in inclusiveness as well. Many families in our parish and the wider community would look to send their children to OLG, but cannot afford the tuition and other costs a societed with carolling their children. As a Catholic institution, it is part of our mestion and our identity to each out to those families and offer to them the same gift that is available to other families a quality Catholic school education.

By providing financial assistance for families who would otherwise find it difficult or impossible to afford tuition at OLG, we will make our school more accessible to all. Their presence, in turn, will make our student body more diverse and truly "Cotholic." And the larger school population will benefit everyone by keeping tuition costs from practipitous increases.

Last year, we assisted wenty families with the \$20,000 that was raised for Tuition Assistance through Mardi Gras 2004. But the actual financial need was twice that! This year, our goal is to raise \$50,000 to assist even more families to excell or to keep their children in OLG. This is an ambitious goal, but it is a goal to which we have sommitted ourselves, and we are passionate about reaching it.

In addition to Tuition Assistance funds, we hope to raise funds for other important needs at OLGS, including funding for our Resource Program, audio-visual equipment for our classrooms, and additional materials for our Media Center.

Our Elysian Fields planning committee, led by Brooke Whitten, has a great evening planned, so enjoy this magical time in the Elysian Fields! Thank you for your presence here this evening, and your support of Our Lady of Grace School.

Peace and joy,

Thomas H. Metzer Rev. Thomas H. Metzger

"H Thank You"

For all you do for our school

April 16, 2005

Dear Patrons of Our Lady of Grace School:

Welcome! I personally would like to thank each and every one of you for your participation and support of the Elysian Fields Ball 2005. We are indeed blessed with the support we receive from our parish, school families and all of the patrons of this school. We certainly could not achieve all goals without your help!

Several years ago, our parish decided to undertake a huge task — to build in elementary school for northern Hamilton County. Plans were drawn, staff was hired and Our Lady of Grace School opened in the fall of 2000. We now have 112 students in our pre-school, about 280 students in kindergarten — grade 8. Our parish had a dream — to integrate faith into the daily live of its children. That dream continues here, but it is not affordable for many families.

One of the major goals of the Elysian Fields Ball 2005 is to raise funds for tuition assistance. If we truly are going to be Catholic in both name and practice then we must find away to make our school accessible to students in a variety of income settings. Jesus said, "Let the hildren acme to me." Our goal is to answer yes to all families who wish a parochial education here at Our Lady of Grace School.

We still have many needs in our new, thriving community. We continue to need books for our library, supplies for our classrooms, lockers for our gynn. We are certainly blassed with many of the necessary tools to operate a first-rate school, but the list of needs continue to offer children in northern Hamilton County a top of the-line education here at Our Lady of Grace.

Again, please accept our since e thanks for our support and good wishes. Continue to pray for us as we try to achieve our mission of teaching Good children.

Yours in Christ,

Maureen Clerkin Principal
